Byrne Wallace Summer Intern Programme

To whom it may concern,

My name is Alexandra Balog and I have graduated from Maynooth University and now have done a masters in International and European Business Law in Trinity College Dublin in order to further my knowledge in corporate law. I am applying for the Byrne Wallace Intern Programme as I am ready to begin my career in the legal field. I am interested in this programme as I strongly believe that I have the skills required for it, along with my previous experience in the legal field. During my LLM course I have done modules such as M&A and sustainable finance and I am hopeful to contribute the skills and knowledge I am acquiring from it, to your firm. I am highly passionate about complex commercial disputes and I look forward to applying my skills in managing disputes which I have demonstrated through my success doing a dispute resolution module in my undergraduate studies, so the Litigation & Dispute Resolution department of the firm appeals to me. The firm's corporate group interests me as I know it is one of the core practice areas and I believe my background provides the skills needed for that. I am a high-driven individual with a lot of ambition keen to help colleagues and clients and be part of their commercial journeys. I am very keen on learning from the best and I know that one of the firm's strengths is having a great number of experts and its culture which provides ongoing learning and development. I have attached a copy of my current CV which gives more detail on my skills and experience.

Kind regards,

Alexandra
