

Dear Sir/Madam,

I am a 3rd Year Student participating in the Bachelor of Laws (LLB) course at Maynooth University. I am sending this application to you to express my interest in Byrne Wallace's Summer Internship in Dublin. I would greatly appreciate being considered for this programme, and I hope that this submission of application finds you well.

The results included in my transcript give an annual grade of 63.8% over the course of my 2nd year of study, which equates to an expected 2.1 degree. I transferred from MH502 (Law and Criminology) to MH501 (Law LLB) between my 1st and 2nd years of study having achieved the above grades. I am thoroughly enjoying my 3rd year and once marks from this year of study are available to me, I wish to share them with you to show proof of my certainty that I am working hard to improve my grades even further.

For a long time, I have looked to build a career in the fields of law which particularly interest me such as litigation and private equity. I am ready to use my skills to work hard for your company and its clients. I am excited to hear the results of this application. If you select me, you will be choosing someone who has been sure on their intended career path and is ready to spare no effort in service of your clients. I have a great deal of respect for Byrne Wallace and the opportunity to work for your firm would be invaluable to me.

I will be constantly engaging with the firm to ensure that I am doing as much as I can to help your clients, and not just squandering this opportunity by toeing the line. For both the sake of my own experience and for the sake of your clients will not do the bare minimum, nor will I only limit to myself to the work that is assigned to me: I will be doing everything I can to see if there is anywhere else for me to learn, work, and help.

Yours faithfully,

George James Avery.
