

Dear Recruitment Manager

I am applying for the summer internship programme at Arthur Cox, your leading Irish Law firm.

I am currently a third year Business and Law student at TU Dublin. I am looking to gain experience in the legal advisory sector, this is a career I have interest in and with my hard work and dedication I know I can deliver excellent results. I would love to gain experience in your internship programme which would hopefully lead me to a future career in law.

I enjoy working as part of a team seen through my college projects such as organising a charity fundraiser in aid of Breast Cancer Ireland. I have excellent time management skills from managing being an international athlete, full time college student and part time work.

Byrne Wallace is a company that I am excited at the prospect of working for, your core values align with mine such. My career goals are to work in a company which offers progression and challenges to help me develop.

Kind Regards,

Lauren Reilly
