Dear Ciara Loftus,

As a passionate and dedicated law student, I am excited to express my strong interest in securing a Summer Internship in 2024 with the prestigious law firm of ByrneWallace LLP. My schedule facilitates me to be fully available for the summer months.

I am genuinely enthusiastic about gaining invaluable practical corporate experience, which I believe will not only enhance my knowledge but also enable me to apply legal principles in real-world scenarios, thereby contributing to my growth as a legal professional.

I am eager to contribute my energy, enthusiasm, and knowledge to your legal team during my time with you. I see this as an opportunity not only to further my own growth and development. but also to assist ByrneWallace LLP in achieving its goals.

I am eager to secure this position specifically in from speaking to your professional and friendly team in the past.

I chose to specifically apply to a summer internship with ByrneWallace LLP as I have a huge interest in the corporate legal world, I feel the likes of Chat GBT, AI, Brexit and ESG are hugely affecting ByrneWallace LLP's clients, and these are topics I am extremely eager to get involved in professionally alongside my own personal interest and research.

More specifically, I feel Brexit has put barriers in place for large Multi-National Companies, trading all over the international market – by enforcing additional legislation and paperwork to be completed in order to transport goods. This has

slowed down the freely available transportation of goods and services both across seas and aircrafts, which as a result had affected their profits. In my opinion I feel as a result of the implementation of new laws by the English Government, ByrneWallace LLP's mission for their clients involved in the corporate sector is to manage and implement these laws into their clients' firms with as little negative affect to profits and the overall running of the company as possible. I believe this modern change in the International Market is here to stay, and it is vital that ByrneWallace LLP is efficient and professional by introducing their expertise to the multi-national firms as effectively and efficiently as possible!

I also have a huge interest in Litigation, Dispute Resolution and investigations, I noticed one of your partners Jon Legorburu specialises in this sector. This is a sector within ByrneWallace LLP that I would be very keen to become involved in. I feel my extremely effective communication and organisational skills would allow me to be successful in this field, alongside Jon Legorburu's expert guidance and knowledge.

I feel I am most suitable to the firm's culture. I admire the firm's ability to evolve not only in the legal world but also into corporate world and I am excited at the opportunity to be involved in such a transformative field to the economy. I know I will be able to show my true potential in ByrneWallace LLP! I also hugely admire how ByrneWallace LLP gives back to the community, I feel this is a key principle to maintain a good moral standard within the firm, which aligns with my own community and charity work.

Thank you for taking the time to consider my application.

Kind regards,

Lottie Ross
