### Key Skills

My skill set is a combination of legal research and writing, analytical and logical reasoning with strong IT skills. My work experience has led me to be an enthusiastic and hard-working employee with a keen interest in learning and performing to a high standard. I am punctual and well presented. Proven track record in communication and interpersonal skills. Excellent customer service skills developed from experience in the food and retail industries. Teamwork and leadership skills gained from college group projects and extra curriculums.
