JMC Van Trans, Naas Road, Newlands cross, Dublin 24.

June '13 – August '13

In the summer of 2013, I secured a place as an accountant's assistant in JMC Van Trans. My work was wholly office based. This was extremely imperative to preparing myself for my future, as I gained valuable experience working in a professional office environment at a very young age.

- A large proportion of my responsibilities involved working with the SAGE system in processing client invoices. Hence I got to exert and stimulate my client communication skills on a daily basis.
- In JMC, I was recognised as being one of the key players in the establishment of a new database system for accounts and orders. I had responsibilities such as manually transferring client and account information from the old database to the new one. This showed my resilience and ability to manage sometimes time consuming and complex tasks.

- I also was on call in order to offer advice to any clients in relation to their invoices or orders.

Achievements & Extra Curricular Activities

- I currently stand as stage four BCL class representatives in UCD Students Union. This is a particular honour as I am member of UCD student union council. - I have a great interest in world history and travel and as a result of my Erasmus in Prague I visited many historical European sites that I had always a keen interest to see.
- At the age of seventeen I travelled solely to Miami to visit Family for a month and since have not been able to stop. Over the past two years I have travelled Central Europe, Greek & Croatian Islands and most recently a road-trip down the West Coast of America.
- Current affairs are something that I keep up with daily. I derive from a family who are always watching international news, reading newspapers, or debating with each other on world politics so perhaps I have inherited the interest from them.
- I have long been interested in fashion and the subcultures which have derived from such. I am fascinated by the rise and consumption of brands and gaining a deeper knowledge behind certain brands purpose.
