PROFILE

I am a focused final year student averaging a 2:2 in law and psychological studies. I can balance multiple competing priorities, having worked part-time throughout my degree whilst still achieving strict deadlines for submission of assignments and studying for exams. I am well organised and pay meticulous attention to detail due to the heavy demands of research. As a result, I am also able to work well under pressure, especially when balancing my educational workload with my volunteering as local football coach. I consider myself to be able to juggle multiple tasks and am proactive in finding solutions. I am looking for a challenging, fast-paced work environment to help me progress into the legal industry.
