

Dear Sir/Madam

I am a responsible, committed and mature individual with a strong post graduate academic record. Over the past 5 years, my curriculum vitae demonstrates my ability to engage with adverse situations, embrace and deliver on new initiatives, prioritise my intellectual energies, and work efficiently to tight deadlines. My undergraduate record demonstrates my abilities as a team player who can work calmly and quickly in high-stress environments, and my experience in research management, human resources and logistics has equipped me with the necessary skills to work in a flexible and task oriented manner. My graduate career including my final thesis, demonstrates my capacity to dissect complex legal questions, and to address the fundamental concepts in a logical and rational manner, and to distil my analysis into tightly written and well argued prose. My aim is to utilize the combination of skills and training to develop my career as a highly motivated and engaged member of the legal profession.

Please find my CV attached I look forward to hearing from you.

Yours faithfully,

Brigid Gavin
