Dear Sir or Madam,

I would like to apply for a position in the Byrne Wallace traineeship programme. I have an honours degree in Law from University College Dublin, have obtained six FE-1 examinations and I am sitting my final two in November. I firmly believe that I am a highly suitable applicant and, moreover, that entering your firm would give me the opportunity to engage in work of the highest calibre, with people who are experts in their field, in an environment which is both plentiful in resources and encouragement. I believe I would thrive in such an environment and am eager to be exposed to the real world of law outside the classroom.

Byrne Wallace appeals to me for a myriad of reasons. The emphasis on strong teamwork and high levels of skill and expertise is evident. This results in an approach which not only helps your clients with issues relevant to them today but also equips them with the knowledge needed to be successful in the future. There is also a clear push to ensure a genuine understanding of your clients, staff and their varying needs. These close professional relationships show a firm that is welcoming and friendly, giving employees room to grow personally and professionally. I want to join your team and gather the necessary tools and experiences which will be available to me, to evolve into the profound solicitor I aspire to be.

I do not believe that my academic results mirror my work ethic. I am extremely hard working and though I understand the importance of academia in a legal career, I know that I would prosper if given the chance. I have great teamwork and interpersonal skills from my various sporting achievements and work experience which I believe shows a hunger and competitive nature to thrive in a legal environment.

I would hope to gain invaluable experience in your traineeship program, as well as being an indispensable asset to your firm.

I extend many thanks for taking the time to consider my application and greatly look forward to hearing from you.

Yours sincerely,

Daniel Green
