19th October 2016

ByrneWallace,
88 Harcourt Street,
Dublin 2.

Dear Ms Crona McLoughlin,

Trainee Recruitment 2016.

I am a final year Business and Law student from University College Dublin with a current GPA of 3.33 and expect to graduate with a 2.1 Bachelor of Business and Law degree (BBL). I am eager to pursue a career in law and am applying to become a ByrneWallace trainee.

I find law fascinating and want a career where I will analyse problems, conduct research and work with people. I am interested in the structure of deals, problem-solving and negotiations. ByrneWallace has a fantastic reputation across industry sectors. I attended the Trainee Open Evening and was immediately drawn to the enthusiasm of the firm, the hardworking attitude, and the atmosphere of a "big firm with a small firm feel". I am impressed by the fact that trainees are assigned to departments and not to individual partners. The fully rounded training this will lead to makes the firm stand out from the rest and makes me want to pursue a career in ByrneWallace.

Throughout college, I have enjoyed developing my negotiation, mooted, and debating skills through various competitions and events. I work well under pressure and get a great sense of achievement and fulfilment when I work through a complex issue and manage to provide a solution, answer, or reason.

I am hard working and enthusiastic. I am assertive and able to deliver my opinion while listening and understanding those around me. I work extremely well as part of a team and genuinely enjoy working with others.

I want to work for ByrneWallace.

Yours sincerely,

Eimear O'Leary
