5th January 2019.

Dear Hiring manager,

I wish to apply for a position on the ByrneWallace Summer Internship Programme 2019. I am a Bachelor of International Laws student at NUI Maynooth, currently completing the penultimate year of my degree on an international exchange at Rollins College, Florida, America. I am thoroughly committed to a career in law - and particularly a career with ByrneWallace.

I am confident that I have the necessary attributes that make me a strong candidate for the position of summer intern at ByrneWallace. I am currently working for a trusted American law firm Irvin & Irvin PLLC, Florida as a Legal Clerk. I am learning valuable professional skills such as litigation skills, legal research skills, negotiation skills and case management skills. These practical skills are very important in the office environment and I can further develop these skills in ByrneWallace. Additionally, I work for Rollins College as a Social Media Intern in the Marketing & Communications office. This internship has illustrated how technology shapes modern businesses including law firms. It has taught me the importance of data protection and this is knowledge that I can bring forward as an ByrneWallace intern. Additionally, I have learned how to apply analytical skills, communication skills and critical thinking to identify solutions and I will utilise these skills in ByrneWallace.

After researching and attending open evenings with your firm, I believe that ByrneWallace is the right law firm for me to pursue my legal career. Your trainee and development team demonstrated to me that ByrneWallace is the best law firm for me to hone and develop my legal skills in order to be a successful lawyer. Furthermore, ByrneWallace sets itself apart from its competitors by having superior training in a supportive environment, with the highest calibre colleagues, acting on challenging deals. The firm is very dynamic and has a forward thinking approach. As a summer intern, I will be exposed to the workings of the law firm and this is something I am looking forward to. Furthermore, it is important to me to work for a firm that is committed to energy efficiency and managing their impact on the environment. Your quick implementation of the Integrated Environmental Management system, had a huge impact on my decision to apply to ByrneWallace as opposed to other firms as your future Summer Intern.

Thank you for considering my application. I look forward to hearing from you soon.

Kind Regards
Happiness Omochere
