Dear Ms. Onslow,

My name is Harry Quinn and I would like to apply for the Summer Internship Programme at Byrne Wallace.

I graduated last May from Trinity College Dublin with a 2:1 Degree (BA) in History & Political Science. I am currently studying for a two year Masters in Common Law at UCD.

I believe the research and critical analysis skills acquired at undergraduate level have been the perfect training for pursuing this Masters, and ultimately for a career in law.

During my time in college I have worked part time throughout the academic year, as well as during the summer. These experiences have helped me to deal with high pressure situations, where working to a deadline and with a team are extremely important.

I have enclosed a copy of my CV. I hope you will consider me as a candidate for the programme, and I look forward to hearing from you in due course.

Yours Sincerely,
Harry Quinn.
