Manager of the Summer Intern Programme

Byrne Wallace

88 Harcourt St, Saint Kevin's, Dublin, D02 DK18

To whom it may concern:

As a current Intellectual Property and Information Technology Law master student at Trinity College Dublin, with previous experience in the legal field, with great enthusiasm, I am writing to apply for the summer internship position as a legal intern for **Byrne Wallace**. With the expectation that your prestigious firm will allow me to polish and improve my legal skills in order to provide an excellent service to your future clients. I am confident that my extensive knowledge, abilities, multi-cultural interest, the capacity to communicate in three different languages and my outstanding legal planning can contribute to your legal and business culture.

With my previous experience in tax, civil and commercial law, I have been able to put into practice the different legal principles in the various activities that an expert carries out on a daily basis, such as negotiation, document review, legal advice, alternative means of dispute resolution, drafting of lawsuits and preparation of contracts. I should also mention that my language skills have helped me to create an atmosphere of trust and comfort with foreign clients. Over the years I have been able to demonstrate that I am a natural leader, persistent, organized, with superb communication skills and high work ethic.

I am currently studying a Master in Intellectual Property and Information Technology Law, a field of law that I am extremely passionate about. I have a keen interest in the protection, cybersecurity and in the correct application of the principles of the General Data Protection Regulation. It is of utmost importance to have experts in the field to offer optimal legal advice for clients to comply with the new European regulations.

Nevertheless, I am a person passionate about the law, with the willingness and knowledge necessary to perform successfully in other legal areas.

Sincerely,

Julieta Fuentes Domínguez
