---

**To: Ms.Murray, ByrneWallace**

I am a recent law and business graduate from Maynooth University and am applying for the traineeship program at your office. Participating in the online Trainee seminar and having conversations with trainees at ByrneWallace stimulated my interest of working for the company.

I have considerable experience in the field of law to be certain that this is the proper professional path for me. Legal work is a natural fit for me since I have a sharp and inquisitive mind and I take great pleasure in providing excellent customer service. In addition to working full-time at Tracey's and Carlisle for the past four months, I interned at A&L Goodbody. Moreover, I have grown up assisting my parents at their professional services firm, Beyond Accounting which provided me exposure and appreciation to the operations and challenges companies face.

As Ireland is a globally-recognized hub for multinational and domestic firms, corporate law is a diverse and rapidly growing field. ByrneWallace's wide portfolio of advising major multinational and domestic companies, governmental authorities, and private clientele is the reason I would like to work within the firm. I have an acute interest in multi-faceted interactions between technology, innovation and law, so ByrneWallace involvement with Irish fintech Trezeo on its acquisition by Monese, a leading player on the Financial services Market and other transactions in the technology sector would help me to develop this interest into the added value for the company and for the client. Additionally, Byrne Wallace enabled Xtrempush to raise 33 million dollars for its commercial development. These examples illustrate the intricate and high-value transactions of ByrneWallace's work, which I aspire to participate in.

I am a very ambitious and motivated individual who is driven to achieve success in a dynamic and fast-paced industry. I have a history of succeeding in fast-paced environments and managing various workloads. In my current roles as a legal intern in Personal Injury and Commercial Debt Recovery and Litigation, I have learned that my skills and attributes are best suited for advising corporate clients and the detail-oriented nature of drafting documentation, and that I therefore thrive in a transactional environment.

My expertise in both business-to-business and business-to-consumer legal and business environments has enabled me to establish an approachable and open style of communication with private and public sector clients. In addition, at the onset of the Covid 19 pandemic, I left my family home and was completely financially independent while pursuing my degree. I worked night shifts as a manager to support myself financially while attaining my degree, which taught me how to prioritise my workloads and remain organised so as to finish all of my obligations.

This experience, combined with my degrees in both Business and Law, not only equips me with the tenacity to manage multiple projects concurrently, but it also provides a solid foundation for continuing to build on my understanding of how the law interacts with and affects businesses, as well as finding ways to achieve goals and objectives in order to better serve the client through innovation

and technology. In addition, I am ready to learn and engage with new material. I am currently pursuing a Diploma that enables me to comprehend the legal ramifications of clients' technology selections.

I would love the opportunity to discuss how I can contribute to your legal team. Thank you for your time and consideration and I look forward to hearing from you.

Sincerely, Katie
