Dear Sir or Madame,

My name is Mark Kiniry and I am currently in my final year of Law at the University of Limerick, Ireland. I am writing to to apply for the advertised Trainee position at Byrne Wallace solicitors.

I have a passion for law with a specific interest in corporate, intellectual property and real estate law, all of which are areas that Byrne Wallace are highly regarded in. Because of this I believe that an internship in your company would provide me with an invaluable learning experience.

I worked multiple part-time jobs in order to help fund my college education and while I initially found it difficult to balance my studies with my commitments, I believe it allowed me to develop both as a student and as an employee with the ability to prioritize my responsibilities. I most recently concluded an eight month full time internship in the law offices of Ronan Daly Jermyn as part of my University's placement program and spent time in both the Litigation and Commercial Property departments. During my internship I was involved in several large scale cases related to client liability in public procurement disputes which allowed me to greatly improve upon my legal research skills. I was also able to improve on my legal writing ability through the drafting of contracts of sale, correspondence with involved parties and the preparation of presentations for the benefit of clients. This experience has strengthened my resolve to progress in the legal profession.

I believe that with my maturity, law firm experience and interest in the legal profession I can be an asset to your organization in any position requiring hard work, attention to detail, and reliability.

Enclosed you will find a copy of my resume highlighting my various work experiences.

Thank you for your time and consideration, please do not hesitate to contact me at any time.

Sincerely,  
Mark Kiniry
