

30th January 2017

Dear Sir / Madam,

I would like to apply for a position on the Byrne Wallace Summer Internship Programme.

I am a final year student at Dublin Institute of Technology, where i am studying for a degree in Law. The course covers a variety of legal topics, but i have been particularly interested in the modules that covered areas of company law, tort law and contract law.

I believe that working with Byrne Wallace would give me the chance to develop my legal, analytical and leadership capabilities, and would give me the opportunity to contribute and learn in a fast moving environment.

I am motivated by dynamic roles which involve adapting quickly to different situations and dealing with a variety of people. While at university, i became closely involved in the Law and Debating Society, where i served both as Treasurer and 2nd Year Representative. I have also been working as a '100Minds' participant, a leadership role with organisational responsibilities for planning events. These roles have given me the chance to experience at first hand the complexities of working with a wide number of people and agendas, and to understand the key role law plays in organisations.

I am very enthusiastic about the opportunities to work within different areas of law as part of the Summer Internship Programme. I like to challenge myself and to set high goals and I believe that Byrne Wallace is an organisation where i could do that.

I am very keen to pursue my career with Byrne Wallace, give its position as a global leader in the legal industry and the strength and reputation of its graduate programme. I believe that I would fit in well with the company's values, and would contribute strongly to the organisation. I have attached my Curriculum Vitae for your consideration, and look forward to hearing from you at your convenience.

Yours Sincerely,

Andrew Synnott.
